**Subject:** Re: Drinking water benchmark for sulfolane

Thanks, Brandon.

Leslie: I will issue a TDD first thing tomorrow morning. Please begin evaluating the substance. Thanks.

Subject: Drinking water benchmark for sulsolane

---

Hey Bob,

As I described on the phone, Brandon Perkins in our unit is working on a site in Alaska where he had some SCDM values generated for a substance called sulsolane. There is no drinking water benchmark for this substance in SCDM - would it be possible for HQ to generate one.

Failing this, ATSDR has generated a value as has the PRP, but we can't use either of these because they are not sanctioned by EPA as part of the SCDM. Let me know how to proceed. Thanks, Ken
